The Inspections Group Inc. was incorporated in 2001. We provide compliance monitoring services under the Alberta Safety Codes Act for five disciplines: Building, Electrical, Plumbing (including private sewage disposal systems) gas and fire. The Inspections Group Inc. also provides permit issuance and inspection services for residential, commercial and industrial sites in four disciplines throughout the province of Alberta

ELECTRICAL PERMIT  
INSPECTION SERVICE  
INFORMATION SHEET

A permit in the electrical discipline is required to install, alter or add to an electrical system.

Please be aware that when you purchase a permit you are only getting an inspection done to the minimum required levels in the Quality Management Plan.

To be an informed buyer, it is critical that you know what inspection(s) you get and if you would like to have more inspections on your project, this can be easily arranged at the time of your permit application.
